

Music Machine 11

Music Machine 11 plays one chord at a time from a choice of 72 chords (all major and minor triads, all major and minor (dominant) 7ths and all major and minor major 7ths).

The chords are played at a volume between 10 (very quiet) and 120 (very loud) in steps of 10.

The length of delay between each chord is directly related to the volume of the chord: the louder a chord is played the longer the pause.

The machine will run indefinitely until stopped by the user.
